ABOUT ME

With a Bachelor in Information Technology and over 2 years of experience working as a software engineer, I am a motivated and committed IT graduate. I have honed my technical skills in programming, system design, and problem-solving throughout my career by building, developing, and optimising software solutions for enterprise clients. While my working experience has improved my capacity for teamwork, project management, and rapid technological adaptation, my academic background has given me a strong foundation in fundamental computer science ideas. I have a strong desire to learn new things constantly, am open to trying out creative ideas, and am driven to apply my abilities and expertise in demanding settings that foster both professional and personal development.
